

## **Grade 7 Summer Reading**

Hello Grade 7! Please know that I believe your short summer months should be spent doing fun activities with your families. Getting outside (safely) and enjoying long summer days is important, especially after the long quarantine period we have endured. Of course, reading is a fun adventure as well! Keeping this in mind, I am only assigning 1 book without a lot of paperwork that would surely squelch the joy of reading. Your assignment will be simply to read the book, enjoy the book (yes, you will) and then respond to a prompt on our classroom "Blog".

The book we are reading is When You Reach Me by Rebecca Stead. It is readily available in print, as an ebook, and can even be found as a download from your local library. This is a fun novel with some time travel, mystery solving, and so much more.

Enjoy a happy, safe summer of adventures, and I will see you soon!

Best Regards,

**Grade 7  
Supply List**

<b>Math:</b>	1.5 "3 ring binder with reinforced filler paper and hole reinforcements pocket calculator Pocket calculator 1 12" ruler
